

Call for Abstracts

10th Annual

Dayton Engineering Sciences Symposium (DESS)

October 28, 2014 at Wright State University

Abstract Deadline: September 26, 2014

Organized by the ASME, Dayton Section, the symposium is designed to facilitate communication between members of the regional technical community, as well as to provide a forum for engineers, scientists, and students to present their technical work.

Abstracts (150 word max.) are solicited for both oral and poster presentations in all areas of the engineering sciences including:

Applied Engineering, Biomechanics, Computer Engineering, Controls Science, Design & Optimization, Electronics & Sensors, Engineering Education, Fluid Mechanics, Industrial & Human Factors, Materials & Processing, Nanotechnology, Power Propulsion & Energy Systems, Structures & Solid Mechanics, Thermal Sciences, Undergraduate and High School Research, Entrepreneurship. (No written paper required)

Keynote Address:

“Towards the Next 40 Years of Planetary Exploration: Advancing Aerodynamic Decelerators for the Future”

Dr. Ian Clark

Low-Density Supersonic Decelerator (LDSD) Project, NASA JPL

IAN CLARK
PRINCIPAL INVESTIGATOR
LDSD PROJECT

To register and submit abstracts, visit:

<http://www.asmedayton.org/DESS/DESS.htm>

Reduced registration rates for ASME members and student presenters. Registration includes admission to all technical sessions, continental breakfast, lunch and all day coffee and refreshments. Registration is also available for those interested in attending just for lunch and keynote.
